

STRIP POKER CONSTRUCTION KIT

by Aleksi Eeben in 2024

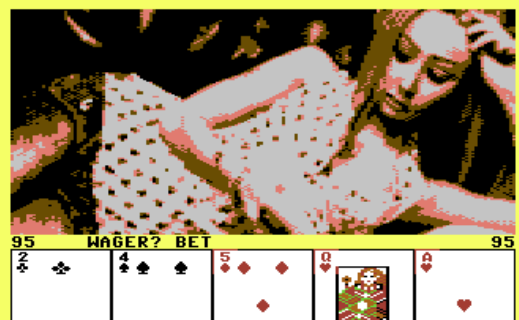

Create your own data disks for the classic Strip Poker game released by Artworx Software in 1984

The original Strip Poker game disk is required to play your own creations

Data disk contains 2 opponents, 5 images both, an opponent selection screen and a few data files with names and text

Do not use this tool to redistribute any imagery without consent and permission from the models and photographers (no matter how low-res the conversion)

Maia & Kaitlyn test images by DALL-E 2

```
CONVERT IMAGES
IMAGE RESTRICTIONS:
- ONLY TOP 160*144 PIXELS ARE CONVERTED
- 4 COLORS: BLACK, BROWN, PINK, LT GRAY
- PALETTE CAN BE EDITED IN OPPONENT DATA

OUTPUT FILE NAME FORMAT:
