

| Picture: | Unit Type: | Entry: | Class: | Height: | Weight: | Drive: | Brain: | Armament: | Sensors 1: | Sensors 2: | Sensors 3: | Notes: |
|---|------------------------|--------|-----------|---------|---------|-----------|-----------|-----------|------------|------------|------------|--|
|  | 001 - Influence Device | 01 | Influence | 1.00 | 027 | None | None | Lasers | | | | Robot activity influence device. This helmet is self-powered and will control ant robot for a short time. Lasers are turret mounted. |
|  | 123 - Disposal Robot | 02 | Disposal | 1.37 | 085 | Tracks | None | None | Spectral | Infra-red | | Simple rubbish disposal robot. Common device in most space craft to maintain a clean ship. |
|  | 139 - Disposal Robot | 03 | Disposal | 1.22 | 061 | Anti-grav | None | None | Spectral | | | Created by Dr. Masternak to clean up large heaps of rubbish. Its scoop is used to collect rubbish. It is then crushed internally. |
|  | 247 - Servant Robot | 04 | Servant | 1.56 | 073 | Anti-grav | Neutronic | None | Spectral | | | Light duty servant robot. One of the first to use the anti-grav system. |
|  | 249 - Servant Robot | 05 | Servant | 1.63 | 083 | Tripedal | Neutronic | None | Spectral | | | Cheaper version of the anti-grav servant robot. |
|  | 296 - Servant Robot | 06 | Servant | 1.20 | 047 | Tracks | Neutronic | None | Spectral | | | This robot is mainly used for serving drinks. A tray is mounted on the head. Built by Orchard and Marsden Enterprises. |

| | | | | | | | | | | | | |
|---|-------------------------|----|-------------|------|-----|-----------|-----------|--------|----------|-----------|--|---|
|  | 302 - Messenger Robot | 07 | Messenger | 1.07 | 023 | Anti-grav | None | None | Spectral | | | Common device for moving small packages. Clamp is mounted on the lower body. |
|  | 329 - Messenger Robot | 08 | Messenger | 1.07 | 031 | Wheels | None | None | Spectral | | | Early type messenger robot. Large wheels impede motion on small craft. |
|  | 420 - Maintenance Droid | 09 | Maintenance | 1.41 | 057 | Tracks | Neutronic | None | Spectral | | | Slow maintenance robot. Confined to drive maintenance during flight. |
|  | 476 - Maintenance Droid | 10 | Maintenance | 1.32 | 042 | Anti-grav | Neutronic | Lasers | Spectral | Infra-red | | Ship maintenance robot. Fitted with multiple arms to carry out repairs to the ship efficiently. All craft built after the Jupiter Incident are supplied with a team of these. |
|  | 493 - Maintenance Droid | 11 | Maintenance | 1.48 | 051 | Anti-grav | Neutronic | None | Spectral | | | Slave maintenance droid. Standard version will carry its own toolbox. |
|  | 516 - Crew Droid | 12 | Crew | 1.57 | 074 | Bipedal | Neutronic | None | Spectral | | | Early crew droid. Able to carry out simple flight checks only. No longer supplied. |

| | | | | | | | | | | | | |
|---|----------------------|----|----------|------|-----|-----------|-----------|-------------|-------------|-----------|--|---|
|  | 571 - Crew Droid | 13 | Crew | 1.76 | 062 | Bipedal | Neutronic | None | Spectral | | | Standard crew droid. Supplied with the ship. |
|  | 598 - Crew Droid | 14 | Crew | 1.72 | 093 | Bipedal | Neutronic | None | Spectral | | | A highly sophisticated device. Able to control the Robo-Freighter on its own. |
|  | 614 - Sentinel Droid | 15 | Sentinel | 1.93 | 121 | Bipedal | Neutronic | Laser Rifle | Spectral | Subsonic | | Low security sentinel droid. Used to protect areas of the ship from intruders. A slow but sure device. |
|  | 615 - Sentinel Droid | 16 | Sentinel | 1.20 | 029 | Anti-grav | Neutronic | Lasers | Spectral | Infra-red | | Sophisticated sentinel droid. Only 2000 built by the Nicholson corporation. These are now very rare. |
|  | 629 - Sentinel Droid | 17 | Sentinel | 1.09 | 059 | Tracks | Neutronic | Lasers | Spectral | Subsonic | | Slow sentinel droid. Lasers are built into the turret. These are mounted on a small tank body. May be fitted with an auto-cannon on the Gillen version. |
|  | 711 - Battle Droid | 18 | Battle | 1.93 | 102 | Bipedal | Neutronic | Disruptor | Ultra-sonic | Radar | | Heavy duty battle droid. Disruptor is built into the head. One of the first in service with the Military. |

| | | | | | | | | | | | | |
|---|----------------------|----|----------|------|-----|-----------|-----------|--------------|-----------|-------|-----------|---|
|  | 742 - Battle Droid | 19 | Battle | 1.87 | 140 | Bipedal | Neutronic | Disruptor | Spectral | Radar | | This version is the one mainly used by the Military. |
|  | 751 - Battle Droid | 20 | Battle | 1.93 | 227 | Bipedal | Neutronic | Lasers | Spectral | | | Very heavy duty battle droid. Only a few have so far entered service. These are the most powerful battle units ever built. |
|  | 821 - Security Droid | 21 | Security | 1.00 | 028 | Anti-grav | Neutronic | Lasers | Spectral | Radar | Infra-red | A very reliable anti-grav unit is fitted into this droid. It will patrol the ship and eliminate intruders as soon as detected by powerful sensors. |
|  | 834 - Security Droid | 22 | Security | 1.10 | 034 | Anti-grav | Neutronic | Lasers | Spectral | Radar | | Early type anti-grav security droid. Fitted with an over-driven anti-grav unit. This droid is very fast but is not reliable |
|  | 883 - Security Droid | 23 | Security | 1.62 | 079 | Wheels | Neutronic | Exterminator | Spectral | Radar | | This droid was designed from archive data. For some unknown reason it instills great fear in Human adversaries. |
|  | 999 - Command Cyborg | 24 | Command | 1.87 | 162 | Anti-grav | Primode | Lasers | Infra-red | Radar | Subsonic | Experimental command cyborg. Fitted with a new type of brain. Mounted on a Security Droid anti-grav unit for convenience. Warning: the influence device may not control a primode brain for long. |
